A Woman Only Knows

what suffering from falling of the womb, whites, painful or irregular menses, or any disease of the distinctly feminine organs is. A man may sympathize or pity but he can not know the agonies she goes through—the terrible suffering, so patiently borne, which robs her of beauty, hope and happiness. Yet this suffering really is needless.

McELREE'S Wine of Cardui

will banish it. This medicine cures all "female diseases" quickly and permanently. It does away with humiliating physical examinations. The treatment may be taken at home. There is not continual expense and trouble. The sufferer is cured and *stays cured.*

Wine of Cardui is becoming the leading remedy for all troubles of this class. It costs but $1 from any druggist.

For advice in cases requiring special directions, address, the "Ladies Advisory Department," The Chattanooga Medicine Co., Chattanooga, Tenn.

MRS. C. J. WEST, Nashville, Tenn., writes:—"This wonderful medicine ought to be in every house where there are girls and women."

Pays the Mountain People a Highly Deserved Compliment Upon Their Moralality.

2404, 3D ST., LOUISVILLE, KY., April 16, 1900.

SPENCER COOPER, Editor—Dear Comrade: I enclose you one dollar in currency to subscribe to your paper for one year. Never mind the premium, as I take the daily Courier, and I take your paper only as an appreciation of an old comrade, and as I am old, 75 and in bad health, I will get you to stop it at end of year. I received your two papers and in the first felt kindly for your remark about myself, and I think very true. That is that my friends were the privates and subordinate officers. Of course I had some friends amongst the other officers, especially George W. Rue, and some others. As you get to higher officers ambition, etc., interfere. I believe I deserved the kind feelings of the privates and subordinate officers. I would not permit them to be cursed or injured by anyone, and I had to stand a gr[illegible] of injury to the men by circumstances that I could not control. If it had not been that I would have made some mens' heads whirl with the way I would have disposed of them. The good of the men made me keep quiet. The men often would give me quiet encouragement which was of great value. I did not, however, take my pen up to speak of myself, but to thank you for your kind words. I would have written to you before, but I have been ill. I was not well before, but the wound for several years pained me which passed so closely to the heart, that it is a wonder that it did not kill me at the time, has given me great trouble for the last few years, and will ultimately put an end to me. For the last eight days we have been fighting against heart failure. I have enjoyed your r minisences of the old time. That was Col. Moore of the 27th Michigan, who fought at Green river. I do not know who that Major was that Biscuit brained. It was not Major Tom Bullett as he is still living in this city. We were neighbors for some time. I did not rejoin the regiment until the 14th of January, 1863, after Morgan left the state. The death of my first wife whom I had to bury in St. Louis, prevented me. If it had not been for that I would have been. I remember the Marrowbone fight well as I received the retreating men. I see some ass is saying that the mountain men are descendants of convicts sent from England. Of course there are some bad men in the mountains as well as elsewhere. But judging from the men of both parties that I met, for chivalry of manner, kind hospitality, sobriety and universal defense of the stranger, I think it is a pity there were not a few more men descended from convicts, if they developed into such noble men as I found in my long ride of five hundred miles. I found local option everywhere and not a single drunken man until I got to the bluegrass region. Of course at my age and bad health, I have no political reason to take up their defense. It is only what I sincerely believe just and right, and is their due. It looks like yours is a good country to move to, as I see from your advertisements that you have plenty of "Kash." My comrade, I have been glad to hear from you; it does my heart good. The old ninth was a glorious regiment. I love every one of them, and I trust and pray that we may all be reunited in that better land of peace and harmony, and no more tears and bereavements. Comrade, your "Old Colonel,"

RICHARD T. JACOBS.

LARGELY ATTENDED.

Strong Speeches at Lexington Meeting in Interest of Pure Politics.

An event of great moment in the affairs of the state was the meeting held on the 17th inst., at the opera house, Lexington, for the purpose of protesting against the present political situation in Kentucky. The influence of this meeting, it is intended, shall be felt all over the state. Mrs. A. M. Harrison presided. Taking part were Dr. Fulton, the Hon. John W. Yerkes, of Danville; Judge J. R. Morton, the Rev. James P. Barry, C. Snyder and others.

Mr. Yerkes' speech was the main one reviewing in very general terms the situation, he said:

"I have fullest confidence in the ultimate triumph of this present reformation agitation in Kentucky—in its speedy triumph—confidence that the varied forces being brought into combination and co-operation, all working to one end—the reclamation of the state—will overcome all opposition. Study some of these forces and their strength.

"First—We have in Kentucky today an absolutely independent political element, forceful and growing whose platform is composed of one plank—honesty in elections, honesty in the lawmaking, the law executing and the constructing departments of state government—honest elections, honest legislators, honest executives and honest judges.

"Second—We have today the women of the state aroused to a sense of our condition as never before and demanding personal, political, legislative and judicial purity in their husbands, sons and brothers. Recall the old proverb, 'For a web begun, God send thread.' You women of Kentucky have begun the weaving of a goodly web and God will send you a thread.

"Third—The clergymen of all denominations are responding to a call to duty and action and joining with them is the best element in every walk of life—farmers, mechanics, professional men, merchants, gladly contributing their time, thought and money to this work.

"Fourth—The leadership of our state press is daily demanding the overthrow of every form of lawlessness, force and fraud."—Louisville Post.

For Small-Pox.

Below is an extract from an exchange that is of general interest at this particular time:

The following prescription for small-pox is said to be now generally used in Great Britian. We give what is said about it by a resident of Liverpool: "I am willing to risk my reputation as a public man if the worst case of small-pox cannot be effectually cured in three days, simply by cream of tartar. This is a sure and never-failing remedy. One ounce of cream of tartar dissolved in a pint of boiling water, to be drunk when cold, at short intervals. It can be taken at any time, and is a preventive as well as a curative. It is known to have cured a hundred thousand cases without a failure. I, myself, have restored hundreds by this means. It never leaves a mark, never causes blindness and always prevents tedious lingering."

In conciseness of statement, in the thoroughness with which the ground has been covered, The Biggle Books have won praises on every hand. The boiled-down, common-sense, cream not skim-milk method, which characterizes the pages of the Farm Journal has been carried out in their preparation. For mechanical effect no expense or pains have been spared, and the highly finished paper, the beautiful illustrations, the excellent type and press work, and the handsome cloth binding, make these books models of the printer's art. The color work in the Berry, Poultry and Cow Books has never been attempted before in any book selling for a reasonable price. No farm or rural home is complete without Judge Biggle's Books, and no one interested in these subjects can afford to let another day go by without sharing in the helpful things with which their pages are filled. Pay $40 for a farm library other than this and you will not have more value. The price is 50 cents, free by mail; address the publishers, Wilmer Atkinson Co., Philadelphia.

A Cure for Small-Pox and Scarlet Fever.

Sulphate of zinc, one grain; Digitalis, one grain; sugar, half teaspoonful; water, two tablespoonsful. Take one tablespoonful every hour. Will cure small-pox and scarlet fever in twelve hours at any stage. In addition rub cotton oil and tartaric ointment on breast to prevent eruption on face.—Lynchburg News.

Judge Lilly Dead.

Ex-Circuit Judge Henry Clay Lilly, who suffered a stroke of paralysis recently, died at his home at Irvine, April 19th, aged 71. He was the father of Representative W. H. Lilly, of Estill county, and of the Hon. E. G. Lilly, of Richmond. He was also a member of the state senate from 1868 to 1872.

THE HERALD one year, the Courier-Journal one year, and the Farm Journal for five years. All three for $1.00.

The friends of Dr. J. B. Taulbee in this district are very much disconcerted over the report, which they evidently believe to be authentic, that Pretender Beckham has turned down his application for the position of superintendent of the Eastern Asylum at Lexington and will appoint a brother of the Redwine of unsavory memory. The genial doctor wanted this juicy plum—wanted it with a wholesouled longing that has intensified the pang of disappointment to a degree that entitles him to the sympathies of his host of friends who believed with him that he had the place nailed down. Had Goebel lived, and become the governor, there is no doubt that Dr. Taulbee's ambition would have been gratified, but young Mr. Beckham has a way of his own in brushing to one side the friends of Goebel. Those who have not been turned down already are on the anxious seat.—Mt. Sterling Gazette.

Lung Irritation

is the forerunner to consumption. Dr. Bell's Pine Tar Honey will cure it, and give such strength to the lungs that a cough or a cold will not settle there. 25c. at all good druggists.

The Farm Journal is unlike any other paper; for one thing it prints no quack medical advertisements; for another it takes five year subscriptions and gets the paper to its subscribers the full time if they are anywhere on this planet, even if they move two or three times; if they die their heirs get it. Now we are going to combine with the Farm Journal and send THE HERALD one year and the Farm Journal nearly 5 years (remember of 1899, and all of 1901, 1902, 1903 and 1904) to every advance paying subscriber, new and old, to THE HERALD. This great offer had better be accepted before it is withdrawn.

FOUND A GOLD MINE.

'TWAS IN HIS POULTRY YARD.

Man in Iowa Uses a Compound That Makes His Hens Lay Double the Usual Number Summer and Winter. The Secret of His Success.

People in the neighborhood of Creston, Iowa, are amazed at the number of eggs that this man drives to market with. When asked what was the cause of his hens being so prolific, he stated it was all in a certain compound he was using, that kept his hens in good condition and furnished them with the proper stimulus to egg production. American Poultry Mixture is the name of it, and it is made by American Mfg. Co., Terre Haute, Ind. Every man in the poultry business is interested in the health of his hens and their laying capacity. In the eggs lie his profits. This mixture is guaranteed to increase the production of eggs 100 per cent or money refunded. It will do more than three times as much as the same amount of any other compound. It is concentrated in form and the result of years of practical experience in the poultry business. There is absolutely no doubt as to what it will do, and you are invited to try it at the expense of the company. Send $1.00 for a sample package and if it doesn't do the work you get your money back. This is fair and is made to induce practical poultrymen to give it a trial. It is also a sure preventive of such diseases as the terrible cholera and roup which create such havoc in all parts of the country. It acts directly on the craw and gizzard and is a thoroughly scientific preparation.

The manufacturers guarantee every package or refund purchase money. If your druggist don't sell American Poultry Mixture he's behind the age. In that case order direct from American Manufacturing Co., Terre Haute, Ind.

WITHOUT doubt every man who is now seeking the nomination for office in this county expects to be the chosen one or he would hardly have the temerity to give the idea thought or time. Well, that conceded, how can any one who is thus seeking office consistently refuse to place his announcement in his own county paper, and that, too, a paper published in the interest of the party he is asking the patronage of and published by one of the party who has never practiced the art of "scratching" further than to make a ┼ under the rooster. Once the nominee THE HERALD becomes his allie and ardent spokesman, and how he can refuse to give it his support by placing and paying for his announcement in its columns is a conundrum we can not untangle. Those who expect THE HERALD'S support after they are nominated should give it their patronage in seeking that nomination, for "by their works ye shall know them.'

GOV. TAYLOR has been indicted as an accessory to the murder of Gov. Goebel, but is in New York.

EDITORIAL BRIEFS.

Has Piladelphia raised $80,000 or has it still $80,000 to raise?

"Bobs" went to Africa to dictate, but he remains to criticise and protest.

The Porto Ricans translate "E pluribus unum" to mean "business is business."

Secretary Long can certainly get the vote of the navy mutual admiration society.

Who would have thought that Britain needed the aid of Portugal to try to defeat the Boers?

This will be Dewey's second summer, and everyone knows that second summers are hard on babies and heroes.

What is the difference between Kansas City and Philadelphia? One has halls to burn and the other has no funds to burn.

The report that Bryan is thinkin of moving to Texas must be incorrect, as it is well known that he is meditating on a move to Washington.

If Adam had tried to run for the presidency and had slipped up, it's ten to one he would have blamed it on his wife. That's man's nature.

If Secretary Long runs for vice president, he will find out how bitterly the country resents his efforts to disgrace Schley in order to magnify Sampson.

The British lion is too busy with the frontal harassment of Oom Paul to care much about Webster Davis' exertions in twisting his caudal attachment.

Now in London they have a new form of dueling which the Times seriously declares is too dangerous for common use. This is a little better than the average wit of Punch.

Will the republicans reduce taxes? We trow not. With $150,000,000 to lend out without interest amongst favored banks for the next year, the G. O. P. will never want for campaign funds.

It is now asserted that the Duke d'Arcos was the only diplomat who was invited to the Chicago Manila Day celebration. If this proves true some one should be punished for this inexcusable insult.

Senator Hanna's declaration that Dewey should have announced his candidacy on April Fool's Day will not appeal to the country, which will resent the coarseness of this slur upon a great man.

Mr. Addicks, of Delaware, has not yet been interviewed on the Clark case, but it is well known that he thinks that when a man has paid down his hard cash for a senatorship, he ought to have it.

We don't want to be considered carping, but we would really like to be informed how a man can be guilty of treason or rebellion against a constitution which is expressly declared not to extend to him.

Senator Platt's resolutions that the insurrection in the Philippines had been overcome, appeared in the newspapers side by side with accounts of two desperate attacks made on our troops by the "overcome" insurgents.

Why doesn't the senate take a leaf out of the book of the house and resolve in favor of the direct election of representatives by the people, instead of by means of contest proceedings in which the democrats invariably get the wort of it.

It is not only in regard to Porto Rico that President McKinley has changed front. He once said that there would be no backward step in civil service reform—but he took one. He declared that a war of conquest would be criminal aggession—but he is waging one.

Will Dewey answer the query addressed to him in the name of the democratic national committee, asking whether he intends to support the candidate of the party in case he himself is not nominated? Unless he does, his name should not be considered at all. Common honesty requires such a pledge from him.

The republicans object to the word "imperialism" as applied to the policy of the government towards the possessions. But if it isn't imperialism, what is it? The essence of imperalism is the government of subject peoples without a voice in their own control by aliens.

Now that gold has been found in the Philippines, it will be impossible for the United States to try to govern it as a crown colony without the risk of having a war with Great Britain to settle the rights of her subjects there.

Your taxes are due and must be paid now. So please call and settle, and save trouble, as I am compelled to collect.

OUR GLORIOUS COUNTRY.

Have you watched its marvelous growth? If not, The Weekly Enquirer wants to study the strides it has made. The first census of the United States was taken in 1810. Since then every succeeding ten years. The result has been as follows:

Year.	Population.	Year.	Population.
1810	7,239,881	1860	31,443,321
1820	9,633,822	1870	38,558,371
1830	12,866,020	1880	50,155,783
1840	17,069,453	1890	62,622,250
1850	23,191,876		

Here you have the figures of a basis of calculation. The problem now is: What will be the population of the United States, excluding recent acquisitions. The result is usually announced in July of the census year.

THE WEEKLY ENQUIRER is anxious to engage all in a study of their country. To this end it will distribute cash amounting to $25,000, for solutions received of the population of the United States Census, as follows:

To the first nearest correct guess received	$3,000.00
To the second	1,500.00
To the third	750.00
To the fourth	500.00
To the fifth	250.00
To the sixth	200.00
To the seventh	150.00
To the next 10, each $100, amounting to	1,000.00
To the next 50, each $50, amounting to	2,500.00
To the next 100, each $25, amounting to	2,500.00
To the next 500, each $10, amounting to	5,000.00
To the next 1,530, each $5, amounting to	7,650.00
2197 cash presents amounting to	$25,000.00

In case of a tie, money equally divided.

Every guess on the above proposition must be accompanied by a year's subscription to the WEEKLY ENQUIRER.

You can guess as often as you care to inclose subscription price to the WEEKLY ENQUIRER.

This contest will close a month before the result of the census will be known and officially certified by the Director of the United States Census at Washington, D. C.

Subscription price for the WEEKLY ENQUIRER (including guess) is only $1.00 a year. Eleven copies and eleven guesses for $10.00. For full particulars see WEEKLY ENQUIRER.

I want the ladies, especially, to examine my stock. For the price, I can show them a front-lace shoe that is a world-beater. It is, indeed, a beauty, and to the touch makes one feel that the shoemaker got hold of the kid-glove stock.

Respectfully, JOHN M. ROSE.

Do not forget the offering for Home Missions at the Christian church on the first Sunday in May. Every disciple of our Lord should have a part in this good work.

Be sure and read the adv. of John H. Rose, who advertises in this issue his household and kitchen furniture, shop tools, a horse and cow, etc., etc., for sale at private contract.

Mrs. F. N. Day has an ad. on the first page of this paper which tells of the new millinery stock she has just opened, and in which she invites the ladies to call and see her stock.

The above item speaks for itself, and to say that our people will read it with sorrow is only faintly expresssve of their feelings, for everybody likes John Rose, and from a business standpoint he is one of the bulwarks of our town. Nor is his estimable wife any the less a favorite. No couple we now call to mind that would create such a vacuum by their departure or be so universally missed. In point of good citizenship they will adorn and honor any community under the canopy of the clouds, and once they are located in their new home Madison county may rejoice while Wolfe bows down with regret. But all who know them here join with us in commending them to the good people at their new home, and bespeak them all and every blessing vouchsafed to man by a benificent providence.

One night last week, probobly Wednesday, Berry and James Burton called at the residence of Ben Brown, on White Oak, in Morgan county, and a while after being admitted Berry Burton started in to have a rough house by asking Ben Brown what he had been saying about his sister. Brown replied that he had said nothing derogatory, whereupon Jim Burton picked up a chair, and saying, "there's the male offspring of a dog on his mother's side," started to hit Boyd Brown, an elder son of Ben Brown, but was prevented from doing so by the latter, who put the Burtons out of the house. McKee Brown, a younger son, fastened the door, through which Jim Burton fired a ball from a 45 caliber pistol and wounded him so fatally that death ensued the next day. Berry Burton was at once arrested, but Jim got away and had not been apprehended at last accounts.

Noland & Townsend, photographers, were delivering pictures here the latter part of the week, having made the negatives a week or ten days before. Among the pictures they delivered last week was a street scene of a group of town and country gents congregated, a picture of the academy building with the teachers and pupils, and a scene of the town. The general verdict passed upon their work was that it is good, and as cheap as the same class of work is ever sold at. They will be here the first Friday and Saturday in May, and all who wish to have photographs made should see them at that time.

A Mr. Dorling, a sub-contractor on that section of the Ohio and Kentucky railroad between Lee City and Caney, now under construction, threw up his contract last week, after blowing in all the cash assets he had, about $800, and abandoned the work. It appears that in the contract final payment shall not be made until the roadbed is inspected and received. He had not the means to hang on until that undefined day and date, and hence quit.

E. G. Siggers, Patent Lawyer, Washington, D. C., reports the following patents granted to inventors in Kentucky: He will mail copy of specification and drawings of any patent for 10 cents in stamps. A. Conway, Louisville, seed and fertilizer dropper; N. Gray, Louisville, car-step; J. M. Legget, Mt. Sterling, vehicle wheel; J. M. Myers, Louisville, hoof-plate for horseshoes; E. N. Owens, Somerset, fastening for folding bedsteads; J. G. Smith, Covington, journal lubricating box; A. J. Wheeldon, Small, elevator carrier.

Capt Broas, manager of the Ohio and Kentucky railroad, was taken ill the first of last week, and John Higgins, colored, came down from Lee City, got a hack of H. F. Pieratt and removed Mr. Broas to Jackson. He was so feeble that he had to be hauled on a cot, and John Higgins says that he has fever and with it a terrible cough. He was left at the Palace Hotel, where he will remain until he gets so he can be removed to his home in New York.

John Cox and Harve Stidham, of the Cox Mill neighborhood, each boast of the possession of a black bull calf, born Saturday night and as near alike as the proverbial black-eyed-peas—both black as crows—and the result is sure to prove a case of "Set your price, and I'll give or take."

Frank Pieratt, of Maytown, was here yesterday to get some medicine for his wife, who is dangerously ill. Indeed Dr. Gevedon, her physician, says there is but small hopes for her. She was taken with bronchitis, which subsequently developed into consumption.

Meeting of Democratic County Committee

Pursuant to a call by the chairman of the democratic committee of Wolfe county for the purpose of considering time, manner, etc., for holding a primary or convention for the purpose of nominating candidates for the various offices to be voted for at the November election 1901, met at Hazel Green, Ky., April 28, 1900, at 4 o'clock p. m., the following committeemen were present:

J. R. Carroll, precinct No. 1; John M. Rose, No. 2; J. H Stamper, No. 3; Jas. Banks, No. 4; Joel Gevedon, No. 6; John B Swango, No. 7; S. H. Allen, No. 8.

It was ordered by committee that a primary election be held, and that June 8, 1900 be the day and time for holding

Judge Amos Davis.

Judge Amos Davis, of Morgan county, is announced in the Advocate as a candidate for congress in the Tenth district subject to the action of the democratic party. Judge Davis has always been put down as one of the stalwarts among democrats and has ever led democratic forces to victory. Two terms elected county judge, and two terms, sheriff of his county, and is now one of the commercial tourists doing a prosperous business. Judge Davis expects the nomination and in this event would lead the party to a triumphant victory.

It is with pride the Judge says: "I have been a voter for more than forty years and always without any scratch or even lukewarmness, have supported the ticket in that old fashoned way of getting out and shaking the bushes." The Judge is getting right down to his work, having passed the quarter stretch in the lead.—Mt. Sterling Advocate.

GLENCAIRN, KY., April 23, 1900.

EDITOR HERALD:—It would probably be of some interest so the readers of THE HERALD to know something of the vast timber region which lays north of the L. & E. R. R. near Natural Bridge. To one who has never been here, it would seem strange to travel for several miles from Natural Bridge without finding even an acre of cleared land, but that is the case here.

A narrow guage railroad is now under construction, having already penetrated the vast timber region for more than three miles. It is operated by a lumber and stave company of which Floyd Day is a member. Pine, poplar and oak is being taken out by a small train which moves over the hills and ravines, and around cliffs and precipices with apparently as much safety as a "royal blue" can move across the prairies of Indiana and Illinois.

This section affords some of the grandest scenery that can be found in Eastern Kentucky. Cliffs two hundred feet high can be found on nearly every branch, and underground streams that never fail are in vast number. The sound of the ax and saw and the whistle of the iron horse has been substituted for the hoot and squeak of the owl, and five years from today will not find a period when they can't be heard. Respectfully, &c.,

KELLY KASH.

Mrs. Rilda Day has opened her stock and already made several good sales, among which a nice silk waist to Miss Nettie Wheeler. Her line of notions is very handsome and she is selling at remarkably low prices.

Candidate Stamper.

A. H Stamper, of Campton, Kentucky, registered at the Leland Thursday night. Mr. Stamper recently announced himself as a candidate for congress from the tenth congressional district. The fight for the nomination in that district promises to be a hot one, and Mr. Stamper feels confident that he will win the will of the people.—Lexington Herald, 20th.

At Salem on the third Sunday in May Wm. H. Cord will preach in the interest of Home Missions.

All who desire to wear nicely laundried shirts, collars, cuffs, etc., should call on Robert Cord, agent for the Lexington Steam Laundry, the work of which is superior to that of any laundry in the state. tf

If your horse or mule has a lump, bunch, bone spavine, curb, splint or any like ailment, go to John M. Rose and get a bottle of Quinn's Ointment, which will remove the obstacle. tf

This office this week printed bills advertising Dutch Gold Dust, jr., a fine young stallion that will make the season at Willie Cornett's, in Trimble Bend. From description and pedigree we judge him to be a good one.

Wm. H. Cord has been invited by the South Kentucky C. W. B. M., to speak at their annual convention to be held in Morganfield May 29th, June 1st. He will speak on "Our Mountain Mission."

Don't forget that you can have the Courier-Journal or Dispatch and THE HERALD one year for only $1.00 cash in advance, and besides we will send you the Farm Journal until the end of the 1904.

Remember the debates at the academy chapel on Friday night. There will be two: One between young men; the other between young women.

Tom Mayne, representing the Ball-Warfield drug company, Ironton, Ohio was in town Tuesday, and a guest of the Day House.

Rollin Kash on Tuesday bought of A. J. Scott 14 or 15 walnut logs, for which he paid $15 per 1,000 feet.

FOR : SALE.

Having decided to remove from Hazel Green I will sell all of my SHOP TOOLS AND FIXTURES, including BELLOWS, ANVIL, VISES, SCREW-PLATES, TIRE SHRINKERS, BENDERS, DRILL, etc., etc., too numerous to mention in detail. This is a good chance for some enterprising man to buy my entire interest in the firm of ROSE & DAVIS, and reap the reward of my labor in building up the trade the firm now enjoys. But unless I get an offer at once the tools, etc., will be sold in quantities to suit. In the shop is a large lot of blacksmith and wagon-makers' material, such as iron, steel, bolts, seasoned lumber, etc., to be disposed of in the same way.

Also, all of my HOUSEHOLD AND KITCHEN FURNITURE will be sold in quantities to suit purchasers, and the early callers will get bargains. A horse, harness, two saddles and a good milk cow will be sold.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y. and mention this paper.

SUNNY SIDE.

Fishing seemed to be the principal occupation Saturday afernoons.

H. E. Oney attended Sunday school and church at Hazel Green Sunday.

Grant Lacy, of Hazel Green, came up to spend Sunday with his father and mother.

Uncle Rastus and Aunt Darkey Brooks spent Sunday with their son, Lee Brooks and family, of the Chapple branch neighborhood.

In a private letter to this place from Callie Oney, of Jackson, states that she is getting along real well in her school work. She speaks in the highest terms of her professor and teachers, says that they certainly know how to make a stranger feel at home.

Scott Lacy called on Edward Oney Friday last. They are about the same age, and their parents being near neighbors, they spent much of their early childhood days together; they called up many pleasant recollections of the past, and traced their first school back to the time that the late Willie Swango and Lula Kash taught our public school.

Mrs. M. J. Oney, of this place, in company with Mrs. J. A. Taulbee, Mrs. Dr. Nickell and Mrs. J. H. Pieratt, of Hazel Green, spent the day, Friday, with Mrs. Ida Johnson, it being her birthday. She had prepared an elegant dinner for the occasion. She received several nice presents. Mrs Johnson is a dear good woman, and may she have many more birthdays, and each one be happier than the other is the wish of her many friends.

Ye scribe accompanied Miss Lizzie Henry Friday to her Morgan county home, and Saturday we went to West Liberty, called on our old school mates, Misses Kathleen and Florance McGuire, and from there we went to see Lizzie's dear old grandma Henry, about three miles beyond West Liberty. It was touching to see how the kind old face lit up at the sight of her devoted grandaughter whom she had not seen for a long time. We returned to Mr. Henry's late that afternoon. Mr. Henry is a well-to-do farmer, and has a beautiful country home, and to say that we had a good time with those good people, would be putting it lightly. We came home Sunday evening, feeling that we were well payed for our trip.

SWANGO SPRINGS SAYINGS.

The cornplanter gives music for the farmer now.

Alonzo Craft, of Salem, was with his parents Saturday.

Charley Dale, of Mt. Sterling, was a guest of the Springs part of last week.

Miss Jose Gose, of Salem, is now with Harrison Swango and wife for a while.

Did Misses Callie Taulbee and Nellie Evans call at the Spring on Sunday?

Some of the young ladies and men, of Hazel Green seemed to be enjoying horse back riding out this way Sunday.

Miss Myrtle Jackson, who has been living with Uncle Harry Swango for several years, left Tuesday for her relatives in Menifee county.

Richard Clark and sister, who have been with us for some time, left Sunday for their homes at Mt. Sterling. They seemed to be greatly benefited by the use of the water, and contemplate coming again in June.

GILLMORE GLEANINGS.

John Gibbs has gone to Jackson with his wagon.

T. E. Calhoun, of Quicksand, is visiting the family of J. H. Vest.

Curt Spencer has a very sore hand from being bruised by chopping.

The click of the corn planter is now heard on the hill sides in this vicinity.

Mrs. Geo. Little is very low with fever and not expected to live. Later—Died Tuesday night.

J. M. Ely has moved his steam mill from Quicksand back to the old stand at this place, and is now putting her together.

I see a new correspondent just loomed up from the Sunny Side, who seems somewhat offended at Uncle Remus because he spoke of Brother Wilson running against Brother Cooper for assessor, and thinks preachers should not engage in politics. I did not know there was any politics in a county office. I don't mean to throw any stigma on Bro. Cooper nor pluck a laurel from his brow, and leave the matter with he and Bro. Wilson. But the trick about it is who is Susie Sunbeam? From the sound of the name, I will give you the title of Miss Susie Sunbeam, and will suggest that you just sit down in your plush seat rocking chair, lean back and rock yourself a lulaby on the Sunny Side, and leave the matter with Bros. Cooper and Wilson to settle, says.

April 21. UNCLE REMUS.

TOLIVER TOPICS.

Curtis Swango took dinner with Bruce Bowling Sunday.

Miss Ava Swango spent from Friday till Sunday with her uncle A. B. Swango.

B. F. Bowling and wife were visiting Uncle Jobe Rose and wife, of Menefee, Saturday and Sunday.

Tom Sexton, of Maytown, stayed all night with Mrs. O. W. McNabb one night last week. Come again, Tom.

Harry Perkins and sister Emma, paid A. B. Swango a pleasant visit Saturday and Sunday. While there Miss Emma gave them some nice music.

O. W. McNabb has just finished a new fence of about 400 panel on the farm he recently purchased from Mrs. Bettie Rose on Clark branch

Mrs. O. W. McNabb made a flying trip to Hazel Green Saturday. While there called to see Mrs. W. T. McNabb and also paid Mrs. Nannie Cravens a pleasant call.

The oldest son of John Hurst met with a very severe accident Sunday morning while cutting down a tree in order to get a squirrel, which he had spied in the tops. Not paying attention to what he was doing, the tree knocked him down, and it is thought his leg was broken.

Harry Perkins passed through here last week en route for Clifty, supposed to be canvassing for sheriff. The general supposition of the people is that he was a candidate for matrimony. It wouldn't surprise the writer to hear of Miss Carrie Swango casting ballot in case of a tie in regard to the election in the sheriff race and (matrimonia.)

CONSOLATION CHAT.

Corn planting is the order of the day.

Miss Bonnie Cecil attended church on the Murphy fork Sunday.

Ben Chester, of Montgomery is spending a few days in our midst this week.

A. J. Blankenship and family visited T. M. Lee and wife Saturday night and Sunday.

Willie Testerman, of Grassy Lick, was the guest of Miss Minnie Wallace Sunday.

There will be church at Consolation Saturday and Sunday. All are invited to attend.

Why is it Volney Oldfield never comes back on this side of the hill any more? Can some one tell.

The drake was stepping as high as a blind horse in a rye field Sunday, but says he wouldn't marry at all.

John Bise had a shrubbing on last Saturday and the girls spread dinner on the ground. John means to marry, no how.

Miss Cornie Bise had for her guest Sunday Misses Mary Tyler and Myrtle Gillispie and Lige Blankenship and Ben Chester. All report an enjoyable time.

We incidentally learn that Miss Julian Cecil was on Sunday last married to a Mr. Jackson, of Licking river, and left for that place Monday. Ye scribe wishes them much joy, and thinks they ought to have a copy of the dear old HERALD in their home.

Ben Chester went home with a Hoosier girl, but we learn he did not open the gate as it was a new patent, and of course she had to open it, but says she would rather open all the gates than not be with him. Ben says he will go through the field hereafter. Don't blame you, Ben.

MAYTOWN MISSIVES.

Mrs. E. B. Boman is on the sick list.

Miss Lorena Ingram is very ill at present.

The family of Mr. Weeks are all quite sick.

Miss Anna Hylton was visiting in town Monday.

Charlie Sample has returned from Mt. Sterling court.

Mrs. Lena Pieratt continues very low at her home near town.

Mrs. Lillie Childers and Miss Anna Lacy, of Maytown, were visiting in Ezel Saturday.

LINERY

I have just opened the finest line of Millinery Goods, Millinery Trimmings, Dress Goods and Dress Trimmings, Shirt Waist Silks, Ribbons, etc., ever seen in Hazel Green. Also, a line of Gents' STRAW HATS, NECK-TIES, etc., unsurpassed for beauty.

LULA M. KASH.

Frank Sample, of Stillwater, passed through town Sunday.

Uncle Bill Swango, who has been confined to his sick bed, is out again.

Miss Lillie Oakley returned last week from the feeble minded institute.

Mr. and Mrs. Silas Pieratt were visiting their daughter, Mrs. Doyl Nickell, Sunday.

Charlie Lyons, of Frenchburg, was visiting in town Sunday. We think from all reports he will be back again soon.

Mrs. Sally and little daughter, of Pomeroyton, were visiting her aunt, Mrs. Wills, of town, and friends at Toliver.

Mrs. Louis Hylton was visting relatives in town Thursday last, accompanied by her little son Jakie. As Mr. Hylton is a merchant of our town, Master Jakie thinks he will be back soon to aid his papa in handling candy, crackers, etc., as his success was so great before.

A Woman Only Knows

what suffering from falling of the womb, whites, painful or irregular menses, or any disease of the distinctly feminine organs is. A man may sympathize or pity but he can not know the agonies she goes through—the terrible suffering, so patiently borne, which robs her of beauty, hope and happiness. Yet this suffering really is needless.

COL. R. T. JACOBS,

Pays the Mountain People a Highly Deserved Compliment Upon Their Moralality.

2404, 3D ST., LOUISVILLE, KY., April 16, 1900.

SPENCER COOPER, Editor—Dear Comrade: I enclose you one dollar in currency to subscribe to your paper for one year. Never mind the premium, as I take the daily Courier, and I take your paper only as an appreciation of an old comrade, and as I am old, 75 and in bad health, I will get you to stop it at end of year. I received your two papers and in the first felt kindly for your remark about myself, and I think very true. That is that my friends were the privates and subordinate officers. Of course I had some friends amongst the other officers, especially George W. Rue, and some others. As you get to higher officers ambition, etc., interfere. I believe I deserved the kind feelings of the privates and subordinate officers. I would not permit them to be cursed or injured by anyone, and I had to stand a gr[illegible] of injury to the men by circumstances that I could not control. If it had not been that I would have made some mens' heads whirl with the way I would have disposed of them. The good of the men made me keep quiet. The men often would give me quiet encouragement which was of great value. I did not, however, take my pen up to speak of myself, but to thank you for your kind words. I would have written to you before, but I have been ill. I was not well before, but the wound for several years pained me which passed so closely to the heart, that it is a wonder that it did not kill me at the time, has given me great trouble for the last few years, and will ultimately put an end to me. For the last eight days we have been fighting against heart failure. I have enjoyed your r minisences of the old time. That was Col. Moore of the 27th Michigan, who fought at Green river. I do not know who that Major was that Biscuit brained. It was not Major Tom Bullett as he is still living in this city. We were neighbors for some time. I did not rejoin the regiment until the 14th of January, 1863, after Morgan left the state. The death of my first wife whom I had to bury in St. Louis, prevented me. If it had not been for that I would have been. I remember the Marrowbone fight well as I received the retreating men. I see some ass is saying that the mountain men are descendants of convicts sent from England. Of course there are some bad men in the mountains as well as elsewhere. But judging from the men of both parties that I met, for chivalry of manner, kind hospitality, sobriety and universal defense of the stranger, I think it is a pity there were not a few more men descended from convicts, if they developed into such noble men as I found in my long ride of five hundred miles. I found local option everywhere and not a single drunken man until I got to the bluegrass region. Of course at my age and bad health, I have no political reason to take up their defense. It is only what I sincerely believe just and right, and is their due. It looks like yours is a good country to move to, as I see from your advertisements that you have plenty of "Kash." My comrade, I have been glad to hear from you; it does my heart good. The old ninth was a glorious regiment. I love every one of them, and I trust and pray that we may all be reunited in that better land of peace and harmony, and no more tears and bereavements. Comrade, your "Old Colonel,"

RICHARD T. JACOBS.

LARGELY ATTENDED.

Strong Speeches at Lexington Meeting in Interest of Pure Politics.

An event of great moment in the affairs of the state was the meeting held on the 17th inst., at the opera house, Lexington, for the purpose of protesting against the present political situation in Kentucky. The influence of this meeting, it is intended, shall be felt all over the state. Mrs. A. M. Harrison presided. Taking part were Dr. Fulton, the Hon. John W. Yerkes, of Danville; Judge J. R. Morton, the Rev. James P. Barry, C. Snyder and others.

Mr. Yerkes' speech was the main one reviewing in very general terms the situation, he said:

"I have fullest confidence in the ultimate triumph of this present reformation agitation in Kentucky—in its speedy triumph—confidence that the varied forces being brought into combination and co-operation, all working to one end—the reclamation of the state—will overcome all opposition. Study some of these forces and their strength.

"First—We have in Kentucky today an absolutely independent political element, forceful and growing whose platform is composed of one plank—honesty in elections, honesty in the lawmaking, the law executing and the constructing departments of state government—honest elections, honest legislators, honest executives and honest judges.

"Second—We have today the women of the state aroused to a sense of our condition as never before and demanding personal, political, legislative and judicial purity in their husbands, sons and brothers. Recall the old proverb, 'For a web begun, God send thread.' You women of Kentucky have begun the weaving of a goodly web and God will send you a thread.

"Third—The clergymen of all denominations are responding to a call to duty and action and joining with them is the best element in every walk of life—farmers, mechanics, professional men, merchants, gladly contributing their time, thought and money to this work.

"Fourth—The leadership of our state press is daily demanding the overthrow of every form of lawlessness, force and fraud."—Louisville Post.

For Small-Pox.

Below is an extract from an exchange that is of general interest at this particular time:

The following prescription for small-pox is said to be now generally used in Great Britian. We give what is said about it by a resident of Liverpool: "I am willing to risk my reputation as a public man if the worst case of small-pox cannot be effectually cured in three days, simply by cream of tartar. This is a sure and never-failing remedy. One ounce of cream of tartar dissolved in a pint of boiling water, to be drunk when cold, at short intervals. It can be taken at any time, and is a preventive as well as a curative. It is known to have cured a hundred thousand cases without a failure. I, myself, have restored hundreds by this means. It never leaves a mark, never causes blindness and always prevents tedious lingering."

In conciseness of statement, in the thoroughness with which the ground has been covered, The Biggle Books have won praises on every hand. The boiled-down, common-sense, cream not skim-milk method, which characterizes the pages of the Farm Journal has been carried out in their preparation. For mechanical effect no expense or pains have been spared, and the highly finished paper, the beautiful illustrations, the excellent type and press work, and the handsome cloth binding, make these books models of the printer's art. The color work in the Berry, Poultry and Cow Books has never been attempted before in any book selling for a reasonable price. No farm or rural home is complete without Judge Biggle's Books, and no one interested in these subjects can afford to let another day go by without sharing in the helpful things with which their pages are filled. Pay $40 for a farm library other than this and you will not have more value. The price is 50 cents, free by mail; address the publishers, Wilmer Atkinson Co., Philadelphia.

A Cure for Small-Pox and Scarlet Fever.

Sulphate of zinc, one grain; Digitalis, one grain; sugar, half teaspoonful; water, two tablespoonsful. Take one tablespoonful every hour. Will cure small-pox and scarlet fever in twelve hours at any stage. In addition rub cotton oil and tartaric ointment on breast to prevent eruption on face.—Lynchburg News.

Judge Lilly Dead.

Ex-Circuit Judge Henry Clay Lilly, who suffered a stroke of paralysis recently, died at his home at Irvine, April 19th, aged 71. He was the father of Representative W. H. Lilly, of Estill county, and of the Hon. E. G. Lilly, of Richmond. He was also a member of the state senate from 1868 to 1872.

THE HERALD one year, the Courier-Journal one year, and the Farm Journal for five years. All three for $1.00.

The friends of Dr. J. B. Taulbee in this district are very much disconcerted over the report, which they evidently believe to be authentic, that Pretender Beckham has turned down his application for the position of superintendent of the Eastern Asylum at Lexington and will appoint a brother of the Redwine of unsavory memory. The genial doctor wanted this juicy plum—wanted it with a wholesouled longing that has intensified the pang of disappointment to a degree that entitles him to the sympathies of his host of friends who believed with him that he had the place nailed down. Had Goebel lived, and become the governor, there is no doubt that Dr. Taulbee's ambition would have been gratified, but young Mr. Beckham has a way of his own in brushing to one side the friends of Goebel. Those who have not been turned down already are on the anxious seat.—Mt. Sterling Gazette.

Lung Irritation

The Farm Journal is unlike any other paper; for one thing it prints no quack medical advertisements; for another it takes five year subscriptions and gets the paper to its subscribers the full time if they are anywhere on this planet, even if they move two or three times; if they die their heirs get it. Now we are going to combine with the Farm Journal and send THE HERALD one year and the Farm Journal nearly 5 years (remember of 1899, and all of 1901, 1902, 1903 and 1904) to every advance paying subscriber, new and old, to THE HERALD. This great offer had better be accepted before it is withdrawn.

'TWAS IN HIS POULTRY YARD.

Man in Iowa Uses a Compound That Makes His Hens Lay Double the Usual Number Summer and Winter. The Secret of His Success.

People in the neighborhood of Creston, Iowa, are amazed at the number of eggs that this man drives to market with. When asked what was the cause of his hens being so prolific, he stated it was all in a certain compound he was using, that kept his hens in good condition and furnished them with the proper stimulus to egg production. American Poultry Mixture is the name of it, and it is made by American Mfg. Co., Terre Haute, Ind. Every man in the poultry business is interested in the health of his hens and their laying capacity. In the eggs lie his profits. This mixture is guaranteed to increase the production of eggs 100 per cent or money refunded. It will do more than three times as much as the same amount of any other compound. It is concentrated in form and the result of years of practical experience in the poultry business. There is absolutely no doubt as to what it will do, and you are invited to try it at the expense of the company. Send $1.00 for a sample package and if it doesn't do the work you get your money back. This is fair and is made to induce practical poultrymen to give it a trial. It is also a sure preventive of such diseases as the terrible cholera and roup which create such havoc in all parts of the country. It acts directly on the craw and gizzard and is a thoroughly scientific preparation.

The manufacturers guarantee every package or refund purchase money. If your druggist don't sell American Poultry Mixture he's behind the age. In that case order direct from American Manufacturing Co., Terre Haute, Ind.

WITHOUT doubt every man who is now seeking the nomination for office in this county expects to be the chosen one or he would hardly have the temerity to give the idea thought or time. Well, that conceded, how can any one who is thus seeking office consistently refuse to place his announcement in his own county paper, and that, too, a paper published in the interest of the party he is asking the patronage of and published by one of the party who has never practiced the art of "scratching" further than to make a ┼ under the rooster. Once the nominee THE HERALD becomes his allie and ardent spokesman, and how he can refuse to give it his support by placing and paying for his announcement in its columns is a conundrum we can not untangle. Those who expect THE HERALD'S support after they are nominated should give it their patronage in seeking that nomination, for "by their works ye shall know them.'

EDITORIAL BRIEFS.

Has Piladelphia raised $80,000 or has it still $80,000 to raise?

"Bobs" went to Africa to dictate, but he remains to criticise and protest.

The Porto Ricans translate "E pluribus unum" to mean "business is business."

Secretary Long can certainly get the vote of the navy mutual admiration society.

Who would have thought that Britain needed the aid of Portugal to try to defeat the Boers?

This will be Dewey's second summer, and everyone knows that second summers are hard on babies and heroes.

What is the difference between Kansas City and Philadelphia? One has halls to burn and the other has no funds to burn.

The report that Bryan is thinkin of moving to Texas must be incorrect, as it is well known that he is meditating on a move to Washington.

If Adam had tried to run for the presidency and had slipped up, it's ten to one he would have blamed it on his wife. That's man's nature.

If Secretary Long runs for vice president, he will find out how bitterly the country resents his efforts to disgrace Schley in order to magnify Sampson.

The British lion is too busy with the frontal harassment of Oom Paul to care much about Webster Davis' exertions in twisting his caudal attachment.

Now in London they have a new form of dueling which the Times seriously declares is too dangerous for common use. This is a little better than the average wit of Punch.

Will the republicans reduce taxes? We trow not. With $150,000,000 to lend out without interest amongst favored banks for the next year, the G. O. P. will never want for campaign funds.

It is now asserted that the Duke d'Arcos was the only diplomat who was invited to the Chicago Manila Day celebration. If this proves true some one should be punished for this inexcusable insult.

Senator Hanna's declaration that Dewey should have announced his candidacy on April Fool's Day will not appeal to the country, which will resent the coarseness of this slur upon a great man.

Mr. Addicks, of Delaware, has not yet been interviewed on the Clark case, but it is well known that he thinks that when a man has paid down his hard cash for a senatorship, he ought to have it.

We don't want to be considered carping, but we would really like to be informed how a man can be guilty of treason or rebellion against a constitution which is expressly declared not to extend to him.

Senator Platt's resolutions that the insurrection in the Philippines had been overcome, appeared in the newspapers side by side with accounts of two desperate attacks made on our troops by the "overcome" insurgents.

Why doesn't the senate take a leaf out of the book of the house and resolve in favor of the direct election of representatives by the people, instead of by means of contest proceedings in which the democrats invariably get the wort of it.

It is not only in regard to Porto Rico that President McKinley has changed front. He once said that there would be no backward step in civil service reform—but he took one. He declared that a war of conquest would be criminal aggession—but he is waging one.

Will Dewey answer the query addressed to him in the name of the democratic national committee, asking whether he intends to support the candidate of the party in case he himself is not nominated? Unless he does, his name should not be considered at all. Common honesty requires such a pledge from him.

The republicans object to the word "imperialism" as applied to the policy of the government towards the possessions. But if it isn't imperialism, what is it? The essence of imperalism is the government of subject peoples without a voice in their own control by aliens.

Now that gold has been found in the Philippines, it will be impossible for the United States to try to govern it as a crown colony without the risk of having a war with Great Britain to settle the rights of her subjects there.

Your taxes are due and must be paid now. So please call and settle, and save trouble, as I am compelled to collect.

OUR GLORIOUS COUNTRY.

Have you watched its marvelous growth? If not, The Weekly Enquirer wants to study the strides it has made. The first census of the United States was taken in 1810. Since then every succeeding ten years. The result has been as follows:

Year.	Population.	Year.	Population.
1810	7,239,881	1860	31,443,321
1820	9,633,822	1870	38,558,371
1830	12,866,020	1880	50,155,783
1840	17,069,453	1890	62,622,250
1850	23,191,876		

Here you have the figures of a basis of calculation. The problem now is: What will be the population of the United States, excluding recent acquisitions. The result is usually announced in July of the census year.

THE WEEKLY ENQUIRER is anxious to engage all in a study of their country. To this end it will distribute cash amounting to $25,000, for solutions received of the population of the United States Census, as follows:

To the first nearest correct guess received	$3,000.00
To the second	1,500.00
To the third	750.00
To the fourth	500.00
To the fifth	250.00
To the sixth	200.00
To the seventh	150.00
To the next 10, each $100, amounting to	1,000.00
To the next 50, each $50, amounting to	2,500.00
To the next 100, each $25, amounting to	2,500.00
To the next 500, each $10, amounting to	5,000.00
To the next 1,530, each $5, amounting to	7,650.00
2197 cash presents amounting to	$25,000.00

In case of a tie, money equally divided.

Every guess on the above proposition must be accompanied by a year's subscription to the WEEKLY ENQUIRER.

You can guess as often as you care to inclose subscription price to the WEEKLY ENQUIRER.

This contest will close a month before the result of the census will be known and officially certified by the Director of the United States Census at Washington, D. C.

Subscription price for the WEEKLY ENQUIRER (including guess) is only $1.00 a year. Eleven copies and eleven guesses for $10.00. For full particulars see WEEKLY ENQUIRER.

Richard Clark from near Judy, Montgomery county, is a guest at Swango spring with H. H. Swango, and drinking Swango water for stomach trouble.

Do not forget the offering for Home Missions at the Christian church on the first Sunday in May. Every disciple of our Lord should have a part in this good work.

Be sure and read the adv. of John H. Rose, who advertises in this issue his household and kitchen furniture, shop tools, a horse and cow, etc., etc., for sale at private contract.

Mrs. F. N. Day has an ad. on the first page of this paper which tells of the new millinery stock she has just opened, and in which she invites the ladies to call and see her stock.

Town Marshal Pieratt corralled a few cows the other day intending to impound them, when he was attacked by three or four ladies and had to surrender. We see where he was right.

Bicknell & Early and John H. Rose, of Hazel Green, will form a new firm to erect a large machine shop. The building will be erected at once and everything will be ready for operation soon.—Berea Citizen.

The above item speaks for itself, and to say that our people will read it with sorrow is only faintly expresssve of their feelings, for everybody likes John Rose, and from a business standpoint he is one of the bulwarks of our town. Nor is his estimable wife any the less a favorite. No couple we now call to mind that would create such a vacuum by their departure or be so universally missed. In point of good citizenship they will adorn and honor any community under the canopy of the clouds, and once they are located in their new home Madison county may rejoice while Wolfe bows down with regret. But all who know them here join with us in commending them to the good people at their new home, and bespeak them all and every blessing vouchsafed to man by a benificent providence.

One night last week, probobly Wednesday, Berry and James Burton called at the residence of Ben Brown, on White Oak, in Morgan county, and a while after being admitted Berry Burton started in to have a rough house by asking Ben Brown what he had been saying about his sister. Brown replied that he had said nothing derogatory, whereupon Jim Burton picked up a chair, and saying, "there's the male offspring of a dog on his mother's side," started to hit Boyd Brown, an elder son of Ben Brown, but was prevented from doing so by the latter, who put the Burtons out of the house. McKee Brown, a younger son, fastened the door, through which Jim Burton fired a ball from a 45 caliber pistol and wounded him so fatally that death ensued the next day. Berry Burton was at once arrested, but Jim got away and had not been apprehended at last accounts.

Noland & Townsend, photographers, were delivering pictures here the latter part of the week, having made the negatives a week or ten days before. Among the pictures they delivered last week was a street scene of a group of town and country gents congregated, a picture of the academy building with the teachers and pupils, and a scene of the town. The general verdict passed upon their work was that it is good, and as cheap as the same class of work is ever sold at. They will be here the first Friday and Saturday in May, and all who wish to have photographs made should see them at that time.

A Mr. Dorling, a sub-contractor on that section of the Ohio and Kentucky railroad between Lee City and Caney, now under construction, threw up his contract last week, after blowing in all the cash assets he had, about $800, and abandoned the work. It appears that in the contract final payment shall not be made until the roadbed is inspected and received. He had not the means to hang on until that undefined day and date, and hence quit.

E. G. Siggers, Patent Lawyer, Washington, D. C., reports the following patents granted to inventors in Kentucky: He will mail copy of specification and drawings of any patent for 10 cents in stamps. A. Conway, Louisville, seed and fertilizer dropper; N. Gray, Louisville, car-step; J. M. Legget, Mt. Sterling, vehicle wheel; J. M. Myers, Louisville, hoof-plate for horseshoes; E. N. Owens, Somerset, fastening for folding bedsteads; J. G. Smith, Covington, journal lubricating box; A. J. Wheeldon, Small, elevator carrier.

Capt Broas, manager of the Ohio and Kentucky railroad, was taken ill the first of last week, and John Higgins, colored, came down from Lee City, got a hack of H. F. Pieratt and removed Mr. Broas to Jackson. He was so feeble that he had to be hauled on a cot, and John Higgins says that he has fever and with it a terrible cough. He was left at the Palace Hotel, where he will remain until he gets so he can be removed to his home in New York.

John Cox and Harve Stidham, of the Cox Mill neighborhood, each boast of the possession of a black bull calf, born Saturday night and as near alike as the proverbial black-eyed-peas—both black as crows—and the result is sure to prove a case of "Set your price, and I'll give or take."

Frank Pieratt, of Maytown, was here yesterday to get some medicine for his wife, who is dangerously ill. Indeed Dr. Gevedon, her physician, says there is but small hopes for her. She was taken with bronchitis, which subsequently developed into consumption.

Agents on salary $15.00 per week and expenses; the greatest agent seller ever produced; every stock and poultry raiser buys it on sight. Hustlers wanted. Reference. Address, with stamp, American Mfg. Co., Terre Haute, Ind. tf.

Meeting of Democratic County Committee

Pursuant to a call by the chairman of the democratic committee of Wolfe county for the purpose of considering time, manner, etc., for holding a primary or convention for the purpose of nominating candidates for the various offices to be voted for at the November election 1901, met at Hazel Green, Ky., April 28, 1900, at 4 o'clock p. m., the following committeemen were present:

J. R. Carroll, precinct No. 1; John M. Rose, No. 2; J. H Stamper, No. 3; Jas. Banks, No. 4; Joel Gevedon, No. 6; John B Swango, No. 7; S. H. Allen, No. 8.

It was ordered by committee that a primary election be held, and that June 8, 1900 be the day and time for holding

Judge Amos Davis.

Judge Amos Davis, of Morgan county, is announced in the Advocate as a candidate for congress in the Tenth district subject to the action of the democratic party. Judge Davis has always been put down as one of the stalwarts among democrats and has ever led democratic forces to victory. Two terms elected county judge, and two terms, sheriff of his county, and is now one of the commercial tourists doing a prosperous business. Judge Davis expects the nomination and in this event would lead the party to a triumphant victory.

It is with pride the Judge says: "I have been a voter for more than forty years and always without any scratch or even lukewarmness, have supported the ticket in that old fashoned way of getting out and shaking the bushes." The Judge is getting right down to his work, having passed the quarter stretch in the lead.—Mt. Sterling Advocate.

GLENCAIRN, KY., April 23, 1900.

EDITOR HERALD:—It would probably be of some interest so the readers of THE HERALD to know something of the vast timber region which lays north of the L. & E. R. R. near Natural Bridge. To one who has never been here, it would seem strange to travel for several miles from Natural Bridge without finding even an acre of cleared land, but that is the case here.

A narrow guage railroad is now under construction, having already penetrated the vast timber region for more than three miles. It is operated by a lumber and stave company of which Floyd Day is a member. Pine, poplar and oak is being taken out by a small train which moves over the hills and ravines, and around cliffs and precipices with apparently as much safety as a "royal blue" can move across the prairies of Indiana and Illinois.

This section affords some of the grandest scenery that can be found in Eastern Kentucky. Cliffs two hundred feet high can be found on nearly every branch, and underground streams that never fail are in vast number. The sound of the ax and saw and the whistle of the iron horse has been substituted for the hoot and squeak of the owl, and five years from today will not find a period when they can't be heard. Respectfully, &c.,

KELLY KASH.

Mrs. Rilda Day has opened her stock and already made several good sales, among which a nice silk waist to Miss Nettie Wheeler. Her line of notions is very handsome and she is selling at remarkably low prices.

Candidate Stamper.

A. H Stamper, of Campton, Kentucky, registered at the Leland Thursday night. Mr. Stamper recently announced himself as a candidate for congress from the tenth congressional district. The fight for the nomination in that district promises to be a hot one, and Mr. Stamper feels confident that he will win the will of the people.—Lexington Herald, 20th.

At Salem on the third Sunday in May Wm. H. Cord will preach in the interest of Home Missions.

All who desire to wear nicely laundried shirts, collars, cuffs, etc., should call on Robert Cord, agent for the Lexington Steam Laundry, the work of which is superior to that of any laundry in the state. tf

This office this week printed bills advertising Dutch Gold Dust, jr., a fine young stallion that will make the season at Willie Cornett's, in Trimble Bend. From description and pedigree we judge him to be a good one.

Wm. H. Cord has been invited by the South Kentucky C. W. B. M., to speak at their annual convention to be held in Morganfield May 29th, June 1st. He will speak on "Our Mountain Mission."

Don't forget that you can have the Courier-Journal or Dispatch and THE HERALD one year for only $1.00 cash in advance, and besides we will send you the Farm Journal until the end of the 1904.

Remember the debates at the academy chapel on Friday night. There will be two: One between young men; the other between young women.

Tom Mayne, representing the Ball-Warfield drug company, Ironton, Ohio was in town Tuesday, and a guest of the Day House.

Rollin Kash on Tuesday bought of A. J. Scott 14 or 15 walnut logs, for which he paid $15 per 1,000 feet.

FOR : SALE.

Having decided to remove from Hazel Green I will sell all of my SHOP TOOLS AND FIXTURES, including BELLOWS, ANVIL, VISES, SCREW-PLATES, TIRE SHRINKERS, BENDERS, DRILL, etc., etc., too numerous to mention in detail. This is a good chance for some enterprising man to buy my entire interest in the firm of ROSE & DAVIS, and reap the reward of my labor in building up the trade the firm now enjoys. But unless I get an offer at once the tools, etc., will be sold in quantities to suit. In the shop is a large lot of blacksmith and wagon-makers' material, such as iron, steel, bolts, seasoned lumber, etc., to be disposed of in the same way.

Also, all of my HOUSEHOLD AND KITCHEN FURNITURE will be sold in quantities to suit purchasers, and the early callers will get bargains. A horse, harness, two saddles and a good milk cow will be sold.

The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar sizes. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y. and mention this paper.

SUNNY SIDE.

Fishing seemed to be the principal occupation Saturday afernoons.

H. E. Oney attended Sunday school and church at Hazel Green Sunday.

Grant Lacy, of Hazel Green, came up to spend Sunday with his father and mother.

Uncle Rastus and Aunt Darkey Brooks spent Sunday with their son, Lee Brooks and family, of the Chapple branch neighborhood.

In a private letter to this place from Callie Oney, of Jackson, states that she is getting along real well in her school work. She speaks in the highest terms of her professor and teachers, says that they certainly know how to make a stranger feel at home.

Scott Lacy called on Edward Oney Friday last. They are about the same age, and their parents being near neighbors, they spent much of their early childhood days together; they called up many pleasant recollections of the past, and traced their first school back to the time that the late Willie Swango and Lula Kash taught our public school.

Mrs. M. J. Oney, of this place, in company with Mrs. J. A. Taulbee, Mrs. Dr. Nickell and Mrs. J. H. Pieratt, of Hazel Green, spent the day, Friday, with Mrs. Ida Johnson, it being her birthday. She had prepared an elegant dinner for the occasion. She received several nice presents. Mrs Johnson is a dear good woman, and may she have many more birthdays, and each one be happier than the other is the wish of her many friends.

Ye scribe accompanied Miss Lizzie Henry Friday to her Morgan county home, and Saturday we went to West Liberty, called on our old school mates, Misses Kathleen and Florance McGuire, and from there we went to see Lizzie's dear old grandma Henry, about three miles beyond West Liberty. It was touching to see how the kind old face lit up at the sight of her devoted grandaughter whom she had not seen for a long time. We returned to Mr. Henry's late that afternoon. Mr. Henry is a well-to-do farmer, and has a beautiful country home, and to say that we had a good time with those good people, would be putting it lightly. We came home Sunday evening, feeling that we were well payed for our trip.

I see a new correspondent just loomed up from the Sunny Side, who seems somewhat offended at Uncle Remus because he spoke of Brother Wilson running against Brother Cooper for assessor, and thinks preachers should not engage in politics. I did not know there was any politics in a county office. I don't mean to throw any stigma on Bro. Cooper nor pluck a laurel from his brow, and leave the matter with he and Bro. Wilson. But the trick about it is who is Susie Sunbeam? From the sound of the name, I will give you the title of Miss Susie Sunbeam, and will suggest that you just sit down in your plush seat rocking chair, lean back and rock yourself a lulaby on the Sunny Side, and leave the matter with Bros. Cooper and Wilson to settle, says.

The oldest son of John Hurst met with a very severe accident Sunday morning while cutting down a tree in order to get a squirrel, which he had spied in the tops. Not paying attention to what he was doing, the tree knocked him down, and it is thought his leg was broken.

Harry Perkins passed through here last week en route for Clifty, supposed to be canvassing for sheriff. The general supposition of the people is that he was a candidate for matrimony. It wouldn't surprise the writer to hear of Miss Carrie Swango casting ballot in case of a tie in regard to the election in the sheriff race and (matrimonia.)

John Bise had a shrubbing on last Saturday and the girls spread dinner on the ground. John means to marry, no how.

We incidentally learn that Miss Julian Cecil was on Sunday last married to a Mr. Jackson, of Licking river, and left for that place Monday. Ye scribe wishes them much joy, and thinks they ought to have a copy of the dear old HERALD in their home.

Ben Chester went home with a Hoosier girl, but we learn he did not open the gate as it was a new patent, and of course she had to open it, but says she would rather open all the gates than not be with him. Ben says he will go through the field hereafter. Don't blame you, Ben.
